Byars Pleased with Tendency Among Democrats to Organize Compactly.

ize Compactly.

[Special to The Timer-Dispatch.]

BRISTOL, TENN, September 16.—
Hon, J. Cloyd Byars has inaugurated one of the most active and determined campaigns that has yet been undertaken by a Democratic nominee in the Ninth Virginia District. He spoke at the Tazewell county fair to-day, when many voters of that county were present. He will continue to speak throughout the district.

The Democrats of the various counties are manifesting a zealous interest, and the one aim seems to be a victory for the young Bristolian. The party is being organized in every county, Many Bryan-Kern-Byars clubs have been formed, including half a dozen clubs or more in Washington county alone. A club has just been organized in the Mendota District, which includes every Democratic voter in that precinct. The Byars headquarters here are very active.

Much literature and correspondence are being mailed out, and the Democrats in every community are being urged to organize. Mr. Byars appet to be very hopeful, being especial encouraged with the general sentiment in favor of a thorough organizion.

Realizing the activity of the Democrats. Congressman Slemp and his forces are active. Mr. Slemp addressed a Republican club at Appaiachia, Wise county, last night, following which a Taft-Sherman-Siemp Club was organized, with H. P. Burnett president. Mr. Slemp has a week of active campaigning ahead.

There now seems to be little hope of any further joint debates between siemp and Byars. The latter declares he is ready and willing to meet Mr. Slemp and Byars. The latter declares he is ready and willing to meet Mr. Slemp and Byars. The latter declares he is ready and willing to meet Mr. Slemp declares he has no cause to dread a joint debate, but that he does not care to draw crowds by means or his district organization for Democratic orators to speak to.

Bengal Infant.

Richmond Democrats are to have a mascot for the campaign this fail. Two royal Bengal tiger cubs, the only ones said to ever have been born in captivity, will act as talismen for the members of the party in this city. Already negotiations have been made between several leading Democrats and representatives of Cole Brothers' circus to present the local constitutioncy with the baby tigers, and the ceremony which will attend the occasion will occur next Tuesdy, when the circus comes to town.

The cubs, playful little balls of fur, were born in Maine some six weeks ago. Under the watchful care of S. D. Walters they grew, and their parents are now extremely proud of their offspring. The older tigers are beautifully striped specimens, and are valued at \$20.000 apiece.

The cage in which the happy family live will be the scene of the ceremony next Tuesday, and one of the tigers will be named "Blehmond." A blanket with an appropriate inscription will be ready for the cub, and when presented will be placed in a conspicuous position near the cage.

This circus is the owner of a baby camel, the mascot of the Pennsylvania Shriners, and the baby elephant pays homage to the New York State Republicans. Blankets with appropriate inscriptions have carried the names of these organizations from Canada to Mexico.

Although the persons have not been named as yet, the presentation ceromony will include a speech by one of the Coles and an address of acceptance on the part of the local Democrate organization.

The City Assembly will meet to night to elect the new City Engineer. The selection will be between Messrs. Pettigrew and Liprade, both of Marchester. As the salary is only \$1,200 it is believed that there will be few candidates. Aside from this election nothing else is expected to come off.
Water Commissioners met last night to further investigate the affairs at the water plant. It is believed that because of the Priction between the commissioners and the superintendent there will be something happening that will be in the nature of a sensation to the cilzens generally.

The investigation was started by a workman for the department doing some outside work, when he hould snave been working for the city. This investigation resulted in a further investigation and in the inter in experintendent and the secretary, or clerk, are implicated.

It is understood that there is nothing in the investigation that implicates any of the officials in a criminal way. It was understood last night that the board would make a report to the Council at an early date.

Manchester Consolidation.

The question of consolidation in Manchester has reached the stage now as between the city official and the citizen. There are few plain citizens who do not favor consolidation. Most of those who do not think it a propitious occasion are office-holders and seekers after office. A member of Council said last night that personally he favored consolidation, but from the standpoint of a member of Council, he felt that Manchester should get all that was coming to her in street improvements and other things that will tend to make the city what it should be.
